### 1. Opening

- 1 *Pim opens the meeting at 15h00 and welcomes everyone.*

### 2. Mail

- 2 *The in- and outgoing mail is discussed.*

### 3. Approving the minutes + checking the action list

3 *The minutes of September 6th are approved based on the changes brought up by Kjeld.*

4 *The action list gets updated.*

### 4. Announcements

5 - Taskforces should prepare the topics to be discussed on I(A)O's upfront. The taskforce heads need  
6 to make a planning for this.

7 - Ken is trying to get more details on the way in which the Roeterseilandcampus is being made  
8 accessible for those with a *functiebeperking*.

9 - Ken states that the *care plan* has been approved. It is not yet clear when the *mental health report*  
10 can be expected.

11 - Kjeld explains that the FSR FNWI has decided to postpone working on the earlier letter of the FSR  
12 FNWI on the position of the student assessor.

13 - Mees tells that Pieter Duisenberg will come to the UvA on November 1st. Mees contacted the  
14 spokesperson of the VSNU to organize the event, and this will be discussed next PV. **(action)**

### 5. Updates DB, representatives, Studentassessor-CvB

15 *The written updates are discussed briefly.*

16 Pim tells that the FSR FEB will choose their CSR-representative by Friday.

17 Tamara asks Linda about the consultation of the academic society in the process regarding the renewal  
18 of the allocation model. Clarification will be asked during the IO. **(action)**

### 6. Setting the agenda

19 *The agenda is set without changes.*

20 Pim proposes to deal with the updates at a later point at the agenda from next week on. There are  
21 mixed feelings about changing this on the agenda, but it will be tried next week.

### 7. Working agreements

22 *The CSR votes on setting his working agreements.*

23 The name of Kathelijm is misspelled in the working agreements, and will be corrected.

24  
25 **Proposal:** The CSR adopts the working agreements after the corrections of PV170913.

26 In favor: 10

27 Against: 0

28 Blanco: 0

29 Abstain: 0

30 *The working agreements are voted in.*

### 8. GV: debriefing

31 *The CSR discusses the GV of September 8.*

32 **General:** Pim will try to keep everyone in eyesight and acknowledge people raising their hands for  
33 turns.

34 **Election of chair:** The council compliments Pim on the position.

35 **House regulations:** Kjeld proposes to read out the formal voting proposals in English as well. Kjeld says  
36 that Fokel Ellen (FSR FNWI) has offered to give live translations during the GV. Guido would like the  
37 agenda to be bilingual. Mees says that any proposition regarding language change in the GV should be

38 prepared properly. Mees and Sasha will write a meeting document to discuss the language within the  
39 GV. **(action)** Bram wants to investigate whether council assistants can be considered members of the  
40 CSR and therefore get voting rights. Michele says the CSR should have prepared better.

41 Bachelor Cognition, Language and Communication: Sasha says the discussion was (relatively) long,  
42 especially compared to the discussion on the ILO label reduction. Bram says the discussion should  
43 have been only about the procedure. Michele says content and procedure are intertwined, and Pim  
44 says the 'gentlemen agreement' between central and decentral *medezeggenschap* should be taken into  
45 account.

46 Label reduction ILO: Mees says there were still conditions of the FSR open, but these were minor and  
47 there was enough confidence these would be solved.

## 9. RvT: update [confidential]

48 *The CSR gets an update on the hiring procedure for the RvT-member of the medezeggenschap.*

## 10. Schakeltrajecten

49 *The CSR discusses his views on the financing of transition programs.*

50 Standpoint on the cut on transition programs: Sebastian and Michele do not want to cut the programs.  
51 Teo questions whether the financing of current students or future (possible) students is more  
52 important when there is a limited amount of money available. Mees wonders what the incentive to cut  
53 is. Bram finds the programs important for their instrumental role between HBO-WO and the possibility  
54 they offer to switch programs under the current *leentstelsel*, and he would like to investigate what the  
55 marginal costs of these programs are. Sasha and Kjeld agree with Bram. Ken does not want to cut the  
56 programs, because they are important for accessibility. Loraine also agrees with Bram and wants to  
57 put more pressure to maintain the programs. Pim finds *schakeltrajecten* important to maintain a broad  
58 university. Guido finds the programs important, but wonders why they are necessary for the bachelor,  
59 and Loraine explains what competences are taught in a *schakeltraject*.

60 Guido does not feel the university has to offer this, but Sebastian explains the financial consequences  
61 and preparations. Guido is in favor of self-education and responsibility for the *staatsexamen*. Michele  
62 explains how *schakeltrajecten* sometimes coincide with the regular education and how they are  
63 tailored for the programs afterwards. Teo asks the council about their experiences with help from the  
64 university in their programs, and the council members answer based on their background. Teo asks  
65 what the council finds more important: accessibility or spending money to help students entering the  
66 university. Ken says that more information regarding the financial incentives are needed. He will ask  
67 the CvB for more information regarding the financial situation and incentives of the reduction of the  
68 *schakeltrajecten*, as the council generally is against the disappearance of the *schakeltrajecten* on a large  
69 scale. Bram says that the main problem is that the actual costs are not known, but in the current  
70 allocation model the programs are not motivated to offer *schakeltrajecten*, and the overhead per  
71 student is a large cost in the calculation of the costs.

72 Procedure: Michele is against setting a clear, central procedures on the reduction of *schakeltrajecten*,  
73 as the faculties will be made responsible for programs that are financed only half. He states that  
74 faculties should get the finances when they also get the responsibility. Mees asks how the *bekostiging*  
75 and flow of money for these programs works. Michele explains how the resources are reserved for the  
76 *schakeltrajecten*. Bram will help Ken by looking into financial situation. **(action)**

77

## 11. UB: FGw's vision

78 *The CSR discusses the viewpoints of the FSR FGw for the new UB.*

79 Contemplation room: Mees asks why a contemplation room is needed. Bram gives an explanation of  
80 the coming to be of the term, and Michele says the FSR FGw wants a room in every campus building for  
81 peace and quiet. Mees, Guido and Teo want to use these rooms for study spots, and Teo says the rooms  
82 are currently not being used. Michele says that it is the wish of the FGw and moreover that the current  
83 contemplation room the FGw is being used. Sebastian says these rooms are also used by individuals to  
84 unwind and escape an overload of impulses. Pim does not want to exclude students looking for this  
85 room. The CSR has mixed opinions on the contemplation room, but Pim asks whether Michele would  
86 be allowed to convey this opinion of the FSR in the program group.

87

88 **Proposal:** Michele conveys in the working group binnenstadscampus that the new UB should have a  
89 contemplation room as is the wish of the FSR FGw.

90 In favor: 8

91 Against: 3

92 Blanco: 0

93 Abstain: 0

94 *The proposal is adopted.*

95

96 Sufficient collaboration rooms: In favor.

97 No carpets for allergic reactions: In favor.

98 Windows that can open: in favor: In favor. Guido finds it important that they are suicide proof. Michele  
99 says this would be standard procedure, but he will mention this in the working group.

100 Smoke free entrance: In favor. Michele says this would lead to smoke zones, also covered with a roof.

101 Accessibility: Ken says that not the entire building will be made with the same level accessibility, as the  
102 building would not as a whole be used by all.

103 Toilets: Sebastian and Loraine are in favor of a mix of gender neutral or specific toilets. Guido does not  
104 see the need, but will accept it if the council is in favor. Kjeld emphasizes the practical advantages.

105

106 Mees suggests to mention the wishes of the FGw and the opinion of the CSR in the working group.  
107 Michele proposes to talk with student associations to get more insights in the preferences and needs of  
108 students. The CSR will not set out a survey, but leave this to the FSR.

## 12. Open Educational Resources

109 *The CSR discusses the document and his views on Open Educational Resources.*

110 Michele and Mees say that the document and the recommendations of the work group are quite vague,  
111 and Guido confirms this. Michele asks how the new view differs from the current use of resources.  
112 Guido explains that a platform for the teachers to share materials and information will be created so  
113 that education can be maintained better and research is more searchable. Guido says that currently  
114 there is no real incentive for teachers to use these servers to offer and find resources.

115 Michele asks if the open access is only within the university or also in the collaboration with Elsevier,  
116 and Pim and Guido say it is institutional wide.

117 Bram says this issue of the institutional vision on the Open Educational Resources should be down to  
118 the faculties. Kjeld says that there should also be an institutional wide vision on the resources, so it is  
119 possible to think about the use per course and program. Guido says a central vision is needed to  
120 facilitate that faculties can work together in a digital infrastructure. Mees says that the BKO should

121 centrally take care of educating teachers on the use of royalties, and Guido agrees. Bram fears that the  
122 Open Educational Resources will be made into a *beleidsbudget* in the allocation model. Pim says that a  
123 vision on digitalization should be close to the wishes of teachers in their education; a framework can  
124 be offered, but it is up to teachers to choose to digitalize their work. Guido says that the steering group  
125 is composed of people from the faculties so will be able to take this into account. Pim foresees  
126 problems in this due to prior problems with policy on digitalization. Mees is in favor of an exchange of  
127 best practices and the re-use of sources. Kjeld says that this is not merely about digitalization, but  
128 about the open use of materials and making them accessible, to give people insights into the used  
129 materials. Guido says there will be more work for teachers to accomplish this. Bram says this project is  
130 fairly expensive and the system for royalties is already decent; there is expertise on this in other places  
131 and other companies would be more suited than the UvA to work out the system for Open Educational  
132 Resources. Guido says that the expertise of other universities and companies is taken into account, but  
133 the UvA is currently behind tracks. Michele is worried about the work load for the teachers. Loraine  
134 does see harm in the use of Open Educational Resources and is not sure if there is a gain as well. Ken  
135 wants to know first if this is something CSR wants to pursue. Sasha wants to understand first what this  
136 institutionally would look like. Teo says that this is a question of accessibility, and says that the money  
137 figures should be taken into account. Michele says the issues are not merely financial.  
138 Guido adds that the use of Open Educational Resources will be nationally enforced from 2020  
139 onwards, so the CSR should take this into account and think how that effects the stance of the CSR. The  
140 discussion on the Open Educational Resources will be further discussed in the taskforce and brought  
141 to the PV again next week. **(action)**

### 13. Lunch with the rector

142 *The CSR discusses if he wants to organize the lunch with the rector during the coming year.*

143

144 **Proposal:** The CSR decides to continue organizing the lunch with the rector.

145 In favor: 8

146 Against: 2

147 Blanco: 1

148 Abstain: 0

149 *The proposal is adopted.*

150

151 Sebastian says the rector is very enthusiastic about the events, but it is difficult to find interested  
152 students and topics to discuss. Sasha believes it could be a good moment for students to meet the  
153 rector, and organizing it on a lower frequency could boost this. Pim believes the event is successful as  
154 soon as students and the rector get together. Ken says that the setup of the lunch is very important for  
155 this, and he offers help to find interested students. Sebastian proposes to organize 2 lunches per year.  
156 Ken believes that in that case the presence of the rector in other moments should then be motivated  
157 more. Michele says the lunch is a good way to get informal information from the rector. Linda says that  
158 the lunch with the rector could be an alternative to the *academisch uurtje*. Loraine proposes to rethink  
159 the format of the lunch. Kjeld says that perhaps FSR's can be involved in inviting students, and Pim  
160 proposes to invite UvA employees.

161 V&C will be responsible for finding interested students. The format and frequency will be discussed in  
162 the taskforce.

#### 14. ITK (Instellingstoets kwaliteitszorg)

163 *The CSR gets informed about the status of the Instellingstoets Kwaliteitszorg.*

164 Linda explains how passing the ITK is important now that the program *accreditatie* about overarching  
165 issues has been shifted by the NVAO to an *instellingstoets* and the *programma accreditatie*. When the  
166 UvA does not pass the NVAO, this means that all program accreditations will be more strict. What is  
167 coming up is the midterm review, to see if this the UvA is (getting) ready for the final *accreditatie*, but  
168 these results will also be used in the final *accreditatie*.

169 Bram asks about the influence of the program team on the *accreditatie*. Sasha is not exactly sure, but  
170 says they have a quite large influence as they are hired for this task. It is therefore important that the  
171 CSR also decides on its vision before it is brought to the UCO.

172 The dossiers affected and/or considered by the *programmteam* are: the educational vision,  
173 Internationalisation, the *instellingsplan*, deviations from the *besturingsmodel* (governance model D&D),  
174 the role of OC's following the WvB, Blended Learning, and UvA-Q. Sasha asks the council members to  
175 research these topics within their files and faculties so that this can be taken into consideration.  
176 **(action)** Based on the first meeting with the program team Sasha will inform the council in what form  
177 the input is needed.

#### 15. Council assistants

178 *The CSR discusses the hiring of council assistants.*

179 The application has been published on the website, Facebook and in the WC-krant. Sebastian says that  
180 *Bureau Communicatie* and Mariska have also been contacted to publish the application. Pim asks about  
181 the timeline. Ken says extra time is needed to get the sufficient amount of applications. Most of the  
182 council is in favor of speeding the procedure up. The new, extended deadline for the application will be  
183 Wednesday sept 27.

184 The CSR has a discussion on the preferred qualities of the candidates. Sebastian wants to add that only  
185 candidates who are not on a parties list should be hired. Teo says no requirements that were not in the  
186 application can be added or used. Pim asks if there are certain qualities not listed to take into  
187 consideration. Sebastian has the preference for hiring a woman. Guido and Teo are against  
188 discrimination.

189  
190 **Proposal:** The CSR will give preference to a female candidate in case of equal competence of the  
191 candidates for council assistant.

192 Favor: 6

193 Against: 3

194 Blanco: 2

195 Abstain: 0

196 *The proposal is adopted.*

#### 16. CSR: discussing goals

197 *The CSR looks into the best way to organize a discussion on individual/shared goals in the council.*

198 Loraine asks how to formulate or write goals down, and Ken kept this broad so people can do it based  
199 on their own wishes.

200 Bram and Guido ask why the session on goals is being organized, and Pim says this this has been  
201 discussed and decided. Sebastian does not see the point of organizing it. Kjeld says this can help the  
202 CSR to not be merely reactive, and it will help to find a common ground which might be presented at  
203 the CoBo. Ken says it also contributes to knowing and understanding each other's interests and help

204 possible collaboration. Guido asks if stating a party program would also contribute, and the council  
205 says it does. Guido asks if the goals would be formal as the majority vote would then always win. Sasha  
206 and Ken explain how the session is to look for common goals.  
207 Pim proposes to have the interactive meeting with a dinner. Ken, Sasha and Loraine get the mandate to  
208 work out a the discussion to set shared goals. **(action)** The deadline for filling the survey will be set at  
209 48 hours.

## 17. Language in workgroup

210 *The CSR discusses his stance on the use of Dutch and/or English language in working groups.*  
211 The PV agrees with sending a statement to the CvB. The statement should concern that all students  
212 should be able to participate in the medezeggenschap and that the CvB should take responsibility for  
213 the problems that are caused by internationalization. The CSR will ask the CvB to make the several  
214 workgroups about internationalization English, and that on principle all working groups should be  
215 bilingual.  
216 Pim will write a statement and send this for an editorial round by Friday, so it can be brought to the IO.  
217 **(action)** The statement will be addressing a problem that the CSR encounters, but mostly about  
218 workgroups in the general sense.

## 18. Language courses

219 *The CSR discusses his stance on providing Dutch courses to international students.*  
220 The council is in favor of the proposal by Teo to offer Dutch courses . Loraine is working on *taalbeleid*  
221 so can help on this. Guido wants to open the courses also for Dutch people who need more help with  
222 their grammar.  
223 Teo will contact UvA-Talen and Michael (LOF). **(action)** The point will also be brought up at the IO.  
224 **(action)** Bram proposes to write an *ongevraagd* advice, but this will be discussed later on.

## 19. W.v.t.t.k. / Any other business

225 - Loraine received an e-mail from the student coordinator of the FGw regarding the gender in  
226 surveys of *Studielink*. There are people who don't find it preferable to have to choose between  
227 two genders. Loraine asks if the council has encountered this at other moments. Pim says that the  
228 OER'en used to be gendered to. Council members will e-mail Loraine about the their findings on  
229 the role of gender in the UvA surveys and Loraine will write a meeting document on this. **(action)**

## 20. Questions

230 - Linda asks the representatives to invite her for the FSR CoBo's.  
231 - Ken says there might be a problem in the *Profileringfond*s for the compensation of international  
232 students who pay *Instellingscolleged*.  
233 - Teo proposes to have skype meetings when everyone is ill. The council is not in favor.  
234 - Pim was at an ISO meeting where the ISO *beleidsplan* was set up.  
235 - The process for the allocation model is still to be expected.

## 21. Ending

236 Pim closes the meeting at 18:09.

## Decisions

237 **170913-01** The CSR adopts the working agreements after the corrections of PV170913.

- 238 **170913-02** Michele conveys in the working group Binnenstadscampus that the new UB should have a  
 239 contemplation room, as is the wish of the FSR FGw.
