15 *The written updates discussed briefly.*

16 *Sasha will give cake points to the representatives whose updates were sent too late.*

7. Setting the agenda

17 *The agenda is set with changes.*

18 *Taken from the agenda: OV technical chair.*

8. BAC: Studentassessor-CvB

19 *The CSR decides which members will be participating in the appointments committee.*

20 Teo asks what the reason for the rector was to not want to grant the CSR 4 members in the BAC. Sasha
21 explains this was as the BAC would be unbalanced. Michele adds that the CvB believes the function of the
22 student assessor has a shared position between the CvB and CSR, and therefore the hiring should be shared
23 too. Bram says 1 CSR member also makes the BAC unequal. Whether the CSR will have 2 members in the
24 BAC or not will also be discussed during the upcoming OV.

25 Michele adds that the rector has not said to be willing to change the function in University Regulations, but
26 just has agreed to have a discussion on the function description in the University Regulations.

27 Sebastian asks whether denouncing the function is linked to a smaller BAC representation, and this has been
28 voted in during previous PV's.

29 Kjeld proposes to ask someone who is critical towards the function in the BAC as well. Linda says the
30 assessor communicates mostly with the chair, so this could be taken into consideration.

31

32

-- Ken enters the meeting --

33

34 **Decision:** The CSR decides to delegate Loraine Smith & Pim van Helvoirt to the BAC to hire the
35 Studentassessor-CvB.

36 Pim asks what will be done when the CSR does not get to delegate 2 CSR-members to the BAC. Michele
37 asks whether the CSR would denounce the function if no change is made in the function description in
38 the UR.

39 -- *The meeting is suspended briefly.* --

40

41 As discussed in previous PV's, the intended change of description of the function of student assessor
42 would be implemented in the University Regulations from next year onwards.

43

44 **Voting proposal:** The CSR decides to denounce the function of the student assessor when not being
45 allowed to delegate 2 CSR-members to the BAC, but only 1.

46 *In favor* 10

47 *Against* 0

48 *Blanco* 1

49 *Abstain* 1

50 *The voting proposal is adopted.*

51

52 Pim asks the CSR to consider upfront what to do if no suitable candidates apply for the function. This
53 will be taken into account.

9. Create a Course challenge

54 *The CSR decides on his participation in the panel of judges.*

55 Bram asks whether Pim finds this important and worth his time. Pim says it would not be a lot of work, but
56 it would be fun to participate as a judge.

57

58 **Decision:** The CSR decided that Pim van Helvoirt, as a chair of the CSR, can become a member of the
59 panel of judges of the Create a Course challenge.

10. D&D campaign: reimbursement

60 *The CSR decides on the funding surplus of the D&D campaign committee.*

61 Bram asks what D&D In Progress would spend the money on, in case the CSR does not ask for a refund.
62 Sebastian expects this to be the organization of a conference. Pim adds that last year a half-day
63 conference for the *medezeggenschap* was organized on democratization and diversity. Also a
64 questionnaire had been sent out on the D&D-report. Pim expects that a follow up to this will be
65 organized, and he believes this would be money well spent. Guido says the money could be used better
66 for other events on student involvement.

67

68 **Voting proposal:** The CSR decides to ask for a refund of the surplus of the D&D campaign committee.

69 *In favor* 2

70 *Against* 6

71 *Blanco* 2

72 *Abstain* 2

73 *The voting proposal not adopted.*

74

75 **Voting proposal:** The CSR decides to ask D&D in Progress for a plan before voting on whether the
76 surplus of the campaign budget can be given to them.

77 *In favor* 6

78 *Against 4*

79 *Blanco 1*

80 *Abstain 1*

81 *The voting proposal is adopted.*

82 Sebastian will contact D&D in progress to ask them for a plan to spend the money before the CSR
83 decides on whether to ask for a refund of the money or not. **(action)**

11. Catering

84 *The CSR discusses his stance the Catering services.*

85 The proposal to do nothing about the catering is being scrapped. Kjeld asks if anyone from the faculty
86 council could join the discussion group if file holders are not available, and this is no problem.

87 Focus group: Sebastian says this groups might be composed of passionate food lovers. Bram says that
88 council members should try to represent a wide range of student interests, instead of merely their
89 personal opinion. In comparison to regular students, council members would be more suitable to do
90 so. Guido says a group of 5 random people can have very irregular of even conflicting preferences.

91 Survey: Sebastian says that the caterer had set out a survey last year, but the information of this survey
92 has not been used properly. Guido proposes to this time set out a more simple, clear survey. Mees says
93 that possible delay because of this should also be taken into account. Teo has asked the caterer about
94 the previous survey and the results. Michele says that faculty surveys could be done on paper by
95 handing them out and collecting them afterwards, which would make it easier for students to
96 participate. Pim says that the general opinion of the students is known, as for example survey of the
97 FSR FNWI had very negative results. Raj adds that recent changes have been made regarding the menu
98 and prices, so it needs to be taken into account that these opinions can now differ. Michele explains
99 that Cormet hires local companies, which implies that the different faculties might also have different
100 opinions.

101 Group of file holders: Sebastian asks who would have the final decision on the upcoming procedure,
102 and this would be the composed group. Kjeld says it still could be decided to set out a survey per
103 faculty, and these people would represent the opinion of their faculty within the focus group. Pim says
104 the demand from faculties to work on catering is high, so therefore it is wise to have the FSR's
105 participating in the plan. Michele says if faculties choose to not participate in this, that would be up to
106 the faculties themselves.

107

108 Voting proposal: The CSR decides to compose a group of file-holders of the Catering file who discuss
109 this while taking the needs of the faculties into account.

110 In favor: 12

111 Against: 0

112 Blanco: 0

113 Abstain: 0

114 *The voting proposal is adopted.*

115

116 Facilities and Housing will organize a meeting for the file holders, where they will discuss the
117 possibility of setting out surveys per faculty. **(action)**

118

12. Medezeggenschap as social service

119 *The CSR gets informed about the proposition of LOF on the social service.*

120 Bram says it is not up to the CvB to decide anything on this, and proposes to tell LOF they should take
121 this up themselves. Michele says the CvB could possibly address this in the VSNU.

122

123 **Voting proposal:** The CSR decides to pick up the proposal by LOF regarding a board year as
124 Maatschappelijke Diensttijd.

125 *In favor 3*

126 *Against 2*

127 *Blanco 1*

128 *Abstain 6*

129 *The voting proposal is not adopted.*

130

131 **Voting proposal:** The CSR decides not to pick up the proposal by LOF regarding a board year as
132 Maatschappelijke Diensttijd.

133 *In favor 3*

134 *Against 3*

135 *Blanco 1*

136 *Abstain 5*

137 *The voting proposal is not adopted*

138

139 Bram proposes to bring this up during the round of questions of the OV, but not to do anything else.
140 Guido says the CvB could be asked for their vision on this, without the CSR giving their opinion. Bram
141 says other deans might be bringing this up in the VSNU as well.

142 **Round of opinions:** Mees is against *maatschappelijke diensttijd*. Raj, Sasha, Ken, and Michele agree with
143 Mees. Loraine is not sure yet what the benefits or cons might be. Bram says it is not a part of the role of
144 CSR to bring this up in general. Sebastian is skeptical about the plan and believes this should be left to
145 the new cabinet. Kjeld is in favor of the proposal, and so is Guido. Teo does not care. Pim disagrees with
146 the idea but it might still be better to give diplomas for medezeggenschap if the *maatschappelijke*
147 *diensttijd* is implemented.

148

149 **Voting proposal:** The CSR asks the CvB during the *Rondvraag* of the OV the questions as proposed by
150 LOF regarding board years as *maatschappelijke diensttijd*.

151 *In favor 4*

152 *Against 5*

153 *Blanco 0*

154 *Abstain 3*

155 *The voting proposal is not adopted.*

156

157 **Voting proposal:** The CSR asks the student assessor to informally ask the CvB whether they are
158 familiar with the request of LOF regarding the medezeggenschap as social service.

159 *In favor 5*

160 *Against 4*

161 *Blanco 0*

162 *Against 3*

163 *The voting proposal is adopted.*

164 Pim asks Linda van Exter to informally discuss the LOF proposal with the CvB. **(action)**

13. Infographic & Informative videos

165 *The CSR gets informed about the possibility of creating informative promotion materials.*

166 Mees informs the CSR that the some videos on accomplishing goals in the medezeggenschap already
167 exist, but improvements are welcome to inform students on the structure of the UvA. Kjeld adds that
168 the video would cover medezeggenschap in general, so the UvA would hopefully want to contribute to
169 the development of this video.

170 Bram asks whether it would be cost effective to create this video, as that of the allocation model had
171 not been watched that often. Mees says this might have been depending on the topic and the way the
172 video was promoted. Sebastian believes that the video could be useful, as it could be used both during
173 elections and as general promotion. Kjeld agrees, and says it could help to engage regular students.
174 Guido says it might inform students where they could go for help or to address problems they
175 encounter.

176 Teo asks about the language of the video, and Mees says there might subtitles included. Bram states
177 that the costs for developing two videos in English and Dutch might be done for marginal extra costs.

178 Mees says the budget will be discussed with BC once the plan has been set in more detail. Sasha
179 proposes to ask the CvB whether there would be room for extra budget, if needed.

180 Council members can e-mail input on the informative video and infographic to the PR-taskforce.
181 **(action)**

14. CSR Regulations

182 *The CSR gets informed about the CSR Regulations and the possibility to adjust these.*

183 Sasha explains that *Juridische Zaken* (JZ) will change the article on the COBEX regulation. Bram says
184 Miek Krol is wrong on removing the advisory right of the COBEX as it does not conflict with students
185 being part of this. Michele says this will conflict with the independence of the body, but Bram says this
186 is also not correct.

187 Mees proposes to make certain major changes, i.e. the medezeggenschap representing students and
188 not being bypassed by a student in the board. Sebastian wants to ask for more decisive powers in
189 general. Kjeld proposes to ask for voting rights for council assistants within the council. Teo proposes
190 to include *collegegeldvrij besturen*. Pim wants to clarify the consenting rights in relation to the FSR's,
191 but Bram says it is positive in this case. Pim says a lot of discussions and changes have been mentioned
192 in earlier meetings, and he proposes to list the past discussions and decide whether the CSR wants to
193 follow up on this. Bram, Sasha and Pim will look into this. **(action)** Tamara will convey to Miek Krol
194 that the CSR would like to take a couple of weeks to discuss and propose changes. **(action)**

195 Kjeld says the regulations will already be translated to English once the changes have been
196 implemented. Sasha asks whether the CSR would like the concept version to be translated as well.
197 Kjeld will ask Sara for a translation of the current CSR regulations. **(action)**

15. Werkgroep Sterke Medezeggenschap

198 *The CSR gets informed on the matters which will be discussed with the working group.*

199 Mees asks why an members of the *medezeggenschap* are part of the working group. Pim explains there
200 would be conflict of interest if there would have been members of the current *medezeggenschap*.

201 Bram says *Onderwijsdirecteuren* should not be part of *medezeggenschap*, and this should be addressed
202 separately, as will be discussed in the taskforce Democratization & Policy. **(action)**

203 Mees says that for more democracy at the university it is also necessary to get rid of the BSA.

204 Pim says the direction of the working group is wrong, as the questions are not about *strong*
205 *medezeggenschap* but merely about the current working of *medezeggenschap*. Now the
206 *medezeggenschap* will get blamed for not doing their work properly. Guido says some of the questions
207 could help to make the *medezeggenschap* stronger, but definitely not all. Mees says the composition of
208 the working group also has to do with this. This will be addressed further next week.

16. Model-OER

209 *The CSR discusses the follow up procedure in regard to the model-OER.*

210 After Mees and Sasha conveyed the opinion of the CSR on the OER in the UCO, an informal meeting
211 with Nancy and Brigitte had been organized. The background of the binding regulations has been
212 discussed, just as the name of the model-OER. Pim adds that JZ was open to amending the regulation
213 on Fraud & Plagiarism, but JZ was not directly in favor of amending the other regulations as they first
214 will look more deep into the background of these regulations.

215 Sebastian asks whether the university itself has autonomy in defining what would be considered a
216 sufficient grade. Pim says this is the case indeed as the current grade (5,5) is decided in the model-
217 OER. Bram says defining the 5,5 as sufficient could be problematic as this would entail students with a
218 5,45 to claim their passing. Pim says the problems with these juridical claims could be a counter
219 argument of the CvB indeed.

220 Pim asks if the CSR is still against the binding regulations based on the possible counter arguments.
221 Michele says the CSR should be, as the counter arguments and background were already known. Mees
222 sees certain benefits to the proposed binding regulations. Michele believes faculties should set these
223 definitions and grades themselves. Teo fears it will lead to confusion and stress for students, if the
224 faculties decide independently. Pim would like the grading and retake to be defined on university level
225 to provide certainty for all students. Michele says faculties would still define this in a way that is
226 certain enough.

227 Michele asks why the CSR would reconsider its stance on the model-OER if the CSR had already voted
228 to be against the model-OER. Teo says this would be because not all had been taken into consideration,
229 but Michele disagrees with this. Bram says being fundamentally against the existence of a model-OER
230 does not imply the CSR cannot have an opinion on the binding regulations. Pim says the new model-
231 OER would still have less binding regulations.

232 Sasha says the CSR should discuss the strategy for the OV and proposes to discuss and vote on the
233 action plan. Kjeld explains that at the VU the model-OER had been changed to a format-OER which
234 should be avoided as a potential new name could have implications on the rights of the
235 *medezeggenschap* in this. Bram says this is also based on the consent and advisory rights of the faculty.

236

237 **Voting proposal:** The CSR decides to follow the action plan for the OV as proposed during PV171018
238 in relation to all binding regulations, and decides to do ask juridical advice at a later stage.

239 In favor 8

240 Against 2

241 Blanco 1

242 Abstain 1

243 *The voting proposal is adopted.*

244

245 Pim suggests to further take this up during the OV preparation.

17. Council assistants [confidential]

246 *The CSR discusses the applications and the hiring of council assistants.*

18. W.v.t.t.k. / Any other business

247 *Doodles; Sasha asks everyone, and especially Bram and Raj, to fill in the open Doodles. Sasha will also*
248 *include the new council assistants for the goal setting session.*

249 *Catering: Teo says that the FSR FNWI is organizing their own survey on catering and asks the CSR for*
250 *help. Kjeld will look up the results and send these to the CSR. This will be discussed in the taskforce.*
251 **(action)**
