1. Opening (14:33 uur) en vaststellen agenda

The technical chair opens the meeting and welcomes the meeting participants. The agenda is changed: agenda point *Priorities* is moved to the end of the agenda.

2. Vaststellen verslag van de Overlegvergaderingen // Setting the minutes

5 The minutes are set based on small textual changes.

3. Doornemen actielijst // Checking the actions list

10 *Action point 180109-02* Reformulated based on the proposal of the CvB. The CvB has discussed the diversity policy with the deans and it has been agreed that all deans will communicate the procedure to the FSR's.

Action point 180109-03 The CvB has discussed this with FS and in the UCO. Study places will be made available by rescheduling the empty tutorial rooms.

15 *Action point 180109-04* Van Helvoirt questions whether it is still necessary for the CSR to take this up. The action point remains unchanged.

-- Teo Todercan enters the meeting --

20 *Action point 171128-01* The CvB gives an update. Helena van der Steege (StS) has explained that Intreeweek is financed externally and therefore partly dependent on external sponsorships deals, as long as they fit in the code of conduct of the university. If particular issues occur, these will be addressed.

25 *Action point 171128-03* The CvB explains that the regulations for honours courses differ per faculty. The CvB awaits a proposal from the CSR to discuss opening up the honours courses to other students.

30 *Action point 171024-11* The CvB has discussed this in the VSNU steering group *Onderwijs, onderzoek en valorisatie*, and an inventory research to the practices at different universities has been set out. The CvB will give an update in due time.

35 *Action point 171024-12* The CvB has discussed this in the VSNU and will come with a proposal that will be presented on the Educational Day.

Action point 170411-08 Is reformulated and moved to the pro memorie action list.

4. Mededelingen // Announcements

Announcements from the CSR:

- 40
- Sofie ten Brink is the new interim delegate of the FSR-FdG.
 - Quinta Dijk and Sofie ten Brink have to leave the meeting earlier.

Announcements from the CvB:

- 45
- The CvB thank the CSR for their advice on the model-OER.
 - The CvB has renewed the code of conduct for student associations, to ensure that the *ontgroeningsperiode* and other activities happen in a respectful manner and that student societies act against misbehavior within their own communities.
 - The rector tells that, since January 8th, the CvB has been developing a plan to attract Artificial Intelligence to Amsterdam Science Park. This initiative concerns a project in collaboration with the *Gemeente* of Amsterdam. To accommodate the growth of the sciences, new buildings for students and researchers need to be built at Science Park, as the move of the beta faculty in collaboration with the VU did not happen. This provides an opportunity to accommodate the new initiative as well. This project would be financed through a reservation in the *Huisvestingsplan* and, connected to the new initiative, an
- 50

55 investment from the *Gemeente Amsterdam* which had been reserved for SRON earlier.
Currently, a university-wide discussion group has been installed to discuss the merits of
Artificial Intelligence for the different fields and disciplines of the university, and for society
as a whole. The UvA will announce these plans to the academic community at the beginning
of March and before the municipality elections. The CvB states to be willing to provide more
60 (background) information about the plans.

5. Instellingsplan // Strategic plan

De CSR en het CvB bespreken het verloop van de ronde tafel gesprekken en de herijking van het Instellingsplan. // The CSR and CvB discuss the course of the roundtable discussion and the reviewing of the strategic plan.

65 Borovitskaja thanks the CvB for the CSR's participation in the roundtable discussions and the setup of these sessions. The CSR would like to address certain topics they encountered in the Instellingsplan which they feel deserve extra attention.

- The KPI's are too quantitative, while not always corresponding with the set ambitions or the Quality Assurance. This point has been brought up in the roundtable discussion as well.
- 70 • Internationalization should only happen for the right (educational) reasons and in a sustainable matter.
- The accessibility of master programs should be guaranteed. Master selection should only occur for the right (educational) reasons.
- The *Instellingsplan* should clearly highlight the bilingual policy of the university. The CSR finds this bilingual policy very important.
- 75 • The CSR finds the general accessibility of education of high importance. This should also be addressed more clearly in the *Instellingsplan*.

Borovitskaja states that the CSR is positive about the involvement of *medezeggenschap* and students at the roundtable discussions, but asks what the follow-up procedure will entail. The
80 chair of the CvB states to be positive about the discussions and the introductions that were given by external guests. The next roundtable, for which the entire academic community is invited, is planned for March 19th. The points coming from the past and upcoming roundtable discussions, such as the proper balance between education and research and the link to the HR-policy, will be summarized. The summary of these different points will, together with, among other things, input
85 from the *medezeggenschap*, be noted in a memo that will be presented as an *oplegger* to the *Instellingsplan*. Due to the upcoming *herijking* of the *Instellingsplan*, the strategic plan will not be rewritten or heavily revised at this point. The memo will serve to give a perspective for the upcoming *herijking*, and will need to be approved by the RvT in July. Depending on the content of the memo, the GV will have consenting rights on the memo. The chair of the CvB gives the example
90 of the balance between education and research, which is already mentioned in the *Instellingsplan* and therefore will only need to be highlighted in the memo.

The CSR informs the CvB which topics from the Instellingsplan that they feel deserve extra attention. **(action)**

-- Quinta Dijk leaves the meeting --

95 **6. Collegegeldvrij besturen // Tuition fee free board year**

De CSR en het CvB bespreken de mogelijkheid om studenten vrij te stellen van collegegeld tijdens een voltijd bestuurs- of medezeggenschapsjaar. // The CSR and CvB discuss the possibility to exempt students from their statutory tuition fee when fulfilling a full-time board- or council year.

100 Todercan asks the CvB for a response to the proposal of the CSR on allowing for the option of a tuition fee free board year in a similar way as occurs at the VU. The rector questions the comparison that has been made between the UvA and VU, as many differences are in place. Moreover, last year the *Profileringfond*s has been revised and was set for 3 years after a thorough discussion. The CvB does not want to make changes to the regulations at this moment but would like to exchange ideas and discuss what improvements should be considered for the
105 evaluation. The rector asks what other measures could be taken to change the current conditions of the medezeggenschap. Jaarsma states that the problems are not found only within the *medezeggenschap*, but within full-time board years in a broader sense. Jaarsma proposes to consider the model as currently upheld by the HvA, as this would not imply changing the *Profileringfond*s and would be in line with the recently installed law that supports the
110 possibility of a tuition fee free board year. The CvB suggests including these considerations in the evaluation of the *Profileringfond*s as the desirability of implying the option of tuition fee free board year can be measured by then. The rector states that the CSR16|17 had opposed the option of a tuition fee free board year to ensure that students would be enrolled in courses as well. As the *Profileringfond*s has been revised based on these discussions, the CvB does not
115 want to change the regulations at this moment.

Jaarsma states that the current pressure on full-time board members or students in the medezeggenschap is too urgent to wait until 2019, and asks the CvB to look into the models as proposed by the CSR. The CvB agrees to look into these models. As the UvA is already compensating students more than other universities, the rector suggests considering the
120 benefits and negative aspects of these models as a whole; this would be done to ensure keeping what is currently working well at the UvA and to deal with the specific organizational and educational structures. The CvB stresses that they do not want to revise the *Profileringfond*s at this stage, but firstly want to wait for the evaluation. Jaarsma says that the issues addressed here are linked to the discussion on burnouts. The rector states that it is very important to have
125 a discussion about burnouts and ways of solving this and that the evaluation criteria for the *Profileringfond*s can be one of the outcomes of this discussion.

The CvB and CSR discuss the profiling funds and (possible alternatives to) *collegegeldvrij besturen* and they discuss the evaluation criteria that could be used for evaluating the Profiling fund in 2019. **(action)**

7. Canvas // Canvas

De CSR en het CvB bespreken het vergroten van de zichtbaarheid van de medezeggenschap in Canvas. // The CSR and CvB discuss increasing the visibility of representative councils in Canvas.

135 Nelck stelt dat een vermelding van de medezeggenschap op Canvas het mogelijk maakt om de interactie tussen studenten en de medezeggenschap te bevorderen. Waar de OC's momenteel in Blackboard zijn opgenomen, zullen ze dat, net als FSR'en en de CSR, in Canvas niet zijn. De

OC's en FSR'en zijn echter van belang voor het verzorgen van goed onderwijs en het bieden van een reflectie hierop. De CSR meent dat OC's, wegens hun onderwijsinhoudelijke werkzaamheden aan de criteria voldoen om een vermelding op Canvas te krijgen. Uit het advies van de Werkgroep Sterke Medezeggenschap blijkt dat studentenparticipatie belangrijk is. De CSR meent daarom dat het van toegevoegde waarde is wanneer studenten via Canvas de medezeggenschap kunnen bereiken. De rector stelt dat het belangrijk is om de zichtbaarheid van OC's en de medezeggenschap te verbeteren, maar is er niet van overtuigd dat Canvas hier het aangewezen platform voor is. De rector stelt voor om in overleg met Bureau Communicatie te zoeken naar manieren om de zichtbaarheid van de medezeggenschap te vergroten.

Bakker vult aan dat het voorstel van de CSR niet alleen de reikwijdte van de medezeggenschap betreft, maar het bieden van een degelijk platform en goede facilitering aan OC's. Aangezien Canvast dient als centraal punt voor informatieverzameling, is dit ook het juiste middel om ervoor te zorgen dat student de OC kunnen bereiken. Op deze wijze heeft de OC meer inzicht in de vraag en mogelijkheden voor de verbetering van het onderwijs. Het CvB stelt dat zij de doelstelling van het vergroten van de zichtbaarheid van de medezeggenschap onderschrijven en daarom graag gezamenlijk op zoek gaan naar de beste wijze om dit te bewerkstelligen. Het CvB is echter niet van mening dat Canvas hier het geschikte medium voor is. Nelck vraagt hoe een OC nauw contact met de opleiding kan onderhouden wanneer dit via een aparte website moet gebeuren. De rector stelt voor hier grondig over na te denken en te onderzoeken welke problemen een OC eventueel tegenkomt en hoe deze worden opgelost kunnen worden.

De voorzitter-CvB legt uit dat Canvas een systeem is voor interactie tussen studenten en docenten met betrekking tot het curriculum; het is geen medezeggenschapplatform. Wanneer de medezeggenschap tot Canvas zou worden toegelaten, zal dit interfereren met het onderwijsdoel van. De OC wordt geacht om de kwaliteit van het onderwijs te bewaken. Nelck stelt dat deze invulling van Canvas wordt ingericht door de universiteit, maar dat Canvas voor beide doeleinden kan worden gebruikt wanneer het CvB hiervoor kiest. De voorzitter-CvB legt uit dat de medezeggenschap geen plaats heeft in de curriculumlijn en dat kwaliteitswaarborging op een ander niveau plaatsvindt dan via het leerplatform. De rector vult aan dat kennisdeling tussen docenten ook niet via Canvas verloopt; dit verloopt via de reguliere UvA-website. De voorzitter-CvB stelt dat de medezeggenschap beter te vinden zal zijn op de vernieuwde UvA-website die momenteel meer gebruikersgericht wordt gemaakt. Hierbij kan extra aandacht worden besteed aan de zichtbaarheid van de medezeggenschap. Bakker stelt dat studenten bijna dagelijks gebruik zullen maken van Canvas. Het is voor de medezeggenschap daarom prettig om via Canvas te kunnen worden bereikt. De voorzitter-CvB stelt dat Canvas alleen gebruikt zal worden voor het verschaffen van informatie over onderwijs dat studenten volgen en voor onderwijsdoeleinden.

Van Helvoirt vraagt welke mogelijkheden er bestaan om de OC's te helpen hun zichtbaarheid te vergroten. De voorzitter-CvB stelt dat er wordt gewerkt aan een nieuwsbrief voor studenten. Via dit informatiekanaal kan de zichtbaarheid van OC's ook worden vergroot. Het CvB en de CSR treden in gesprek met Henriette van Oosterzee en Bart Manders over de mogelijkheid van vergroten zichtbaarheid medezeggenschap. **(actie)**

8. Duurzaamheid // Sustainability

180 *De CSR en het CvB bespreken het voorstel van de CSR voor het opstellen van een
duurzaamheidsbeleid. // The CSR and CvB discuss the CSR's proposal for creating a sustainability policy.*

Raj states that sustainability is a point of concern for most of students and employees at the UvA. Independent organization and groups have been working to make the university more sustainable. The different ways have been discussed last month in a meeting that the CSR has
185 organized together with a representation of these organizations and the student councils. It was concluded that the UvA does not have a uniform sustainability policy, although the *Instellingsplan* mentions it briefly. The CSR proposes to give direction to the UvA's sustainability policy and work towards a shared achievement. The rector says that the sustainability policy would apply to both the university as operator and to the university as an educator. The first would need to be discussed with
190 Facility Services. The rector proposes to set up a joint discussion about this and to possibly create a charter. There can be a discussion about what is currently being done and thereby look into ways to make this more visible. The second form of sustainability is addressed in minors, modules and programs. The rector proposes to make more visible which programs the UvA offers in this regard. Raj states that the lack of a clear policy document or aims about sustainability make it difficult to
195 show the organizations or students what the UvA is working on. The CvB explains that in the annual year reports , from 2016 onwards, a chapter about sustainability has been included. This can be taken as a starting point as the CvB agrees with the CSR on the importance of sustainability.

The CvB and CSR meet with Bert Zwiep and Harold Swartjes and the existing sustainability organizations of the university to discuss what is currently being done to improve the sustainability
200 of the university and take this discussion as a starting point for setting out a broader vision on sustainability. **(action)**

9. Compensatie voor eerstejaars studenten in OC's // Compensation for 1st-year students in OC's

205 *De CSR en het CvB bespreken een financiële compensatie uit het Profileringsfonds voor
eerstejaars studenten in opleidingscommissies. // The CSR and CvB discuss a financial
compensation from the profiling fund to first-year students in program committees.*

Van Rees asks the CvB about their view on the possibility to financially compensate first-year students in OC's in retrospect, after obtaining their BSA. Van Rees also stresses the importance of having first-year students in the OC's for their unique views.

210 The rector explains that the CvB does not want to put pressure on 1st-year students to join these organs as they might underestimate the workload and could then have problems obtaining the BSA. A financial compensation in retrospect still encourages students to apply for a position in the OC and could, therefore, increase their workload. Van Rees agrees that this is a legitimate worry, but explains that the workload in OC's differs from the FSR's and CSR. More importantly,
215 the input of 1st-year students about their courses and studies is indispensable for OC's.

The rector says that this would be a change in the current policy, as the UvA now actively tries to protect students in their first year from underestimating the workload of their studies and other work or projects. Van Rees says that this problem should be countered differently than by refraining from a financial compensation. Rather, the UvA should inform students better
220 about the workload. Students should not be limited or kept from these functions. Raj adds that

the motivation for 1st-year students to enter an OC is not monetary, but comes from their passion for education. However, 1st-year students are already allowed to partake in OC's, and therefore should be financially compensated for this work. The CvB agrees that this should be taken into consideration and that a retrospect compensation might stimulate students to work to obtain their BSA. The CvB considers the CSR's proposal on giving a compensation from the profiling funds to 1st-year students in OC's and comes back to this during OV180327. **(action)**

10. W.v.t.t.k. // Any other business

No other business came up during the meeting.

11. Rondvraag en sluiting // Questions and ending

- 230 • Smith asks when the evaluation of Aspire can be expected. This will be taken up outside of the meeting with Herweijer.
- Borovitskaja expresses concerns about the current workload of Juridische Zaken and the status of requests for advice or consent. The CvB will inquire the current workload of JZ and inform the CSR about the upcoming approvals for request and consent. **(action)**
- 235 • Van Rees whether the teachers' language skills sufficiency was addressed in the VSNU. The CvB states not to be in favor of formal requirements. Although the CvB finds the language proficiency of staff highly important, they are hesitant about outsourcing the qualifications externally. The UvA is working setting a package to offer Dutch or English courses to students and staff; this proposal will be presented at the *Onderwijsdag*.
- 240 • Van Rees asks about the status of the CSR's proposal to reschedule the holidays. This has been taken up in the UCO.
- Van Rees states that in the UCO Peter van Baalen was presented as responsible for the rescheduling of empty tutorial rooms. However, he has not been informed about this responsibility. The rector will contact Brigitte Widdershoven and will take this up with Peter van Baalen and Han van der Maas to ensure that the agreements will be carried out. **(action)**
- 245 • Murgia says that the VU-UvA honours commission has been put on non-active. However, as a member of the committee, he was not directly informed about this. The CvB cannot confirm whether this is the case and will inquire this with Albert Feilzer. **(action)**
- 250 • Van Helvoirt has discussed the report of the *Algemene Rekenkamer* with Arne Brentjes and asks whether the comments from CvB can be shared with the medezeggenschap. **(action)**

12. Prioriteiten // Priorities

*De CSR en het CvB bespreken de prioriteiten die de CSR gezamenlijk met het CvB wil stellen.
// The CSR and CvB discuss the priorities which the CSR would like to set together with the CvB.*

Van Helvoirt explains that the CSR has set three general goals for 2018, under which a number of sub-goals can be placed:

- **Student involvement** – encompassing a culture to increase the involvement of students, study associations and medezeggenschap, the turnout of the elections;
- **Sustainable internationalization** – offering language courses, setting a language policy
- **Impact of the medezeggenschap** – *Middelen Wet Studievoorschot*, the function of the central student assessor, the advice of the Werkgroep Sterke Medezeggenschap

The CSR will send the list of their priorities to the CvB. **(action)** The rector proposes discussing a plan to work on these goals and to see what is possible. This will be discussed during upcoming informal meetings.

-- Mariska Herweijer and the chair of the CvB Ten Dam leave the meeting --

265 The rector is content that the CSR has set goals, but stresses that the CSR has listed too many goals to finish all before the end of the academic year. The rector proposes to communicate to students which goals have been achieved by the CSR or in collaboration with the CvB.

13. Sluiting // Ending

270 **The technical chair closes the meeting at 16:14uur and thanks all meeting participants for their contributions.**
